Millennium II

Congratulations on the purchase of your new *Matrox Millennium II* graphics accelerator. With it installed in your system, you now have a powerful, fully functional workstation on your desktop PC.

Combining hardware accelerated true color, digital video and 3D into a single chip design, *Matrox Millennium II* provides powerful acceleration for corporate enterprise and 2D/3D design applications.

You'll be able to work in resolutions up to 1920 x 1080 in accelerated 24-bit color mode, play back smooth MPEG and AVI video clips at 30+ frames per second, and render dazzling 3D graphics in real-time.

And because *Matrox Millennium II* combines superior dual-ported Window RAM memory with its new integrated chip design, you can expect to maintain high performance across all resolutions, color depths and refresh rates.

To demonstrate the true power of your *Matrox Millennium II* graphics accelerator, a number of popular software applications have been enhanced to take full advantage of the *Matrox Millennium II's* multimedia acceleration. These include Micrografx's Simply 3D 2 and Picture Publisher 7, Kai's Power Tools 3, and Compcore Softpeg, a software MPEG player under Windows. You also get the popular Netscape Navigator web browser and Vream WIRL, which lets you fly through VRML files on the web, as well as professional color calibration software using Colorific from Sonnetech. All of these are included here on your *Matrox Millennium II* Installation CD. Also offered are on-line manuals and optimized drivers for Windows NT 4.0, Windows 95, Windows 3.11 & OS/2 Warp.

Simply 3D [2]

MICROGRAFX

Micrografx Simply 3D 2 is a powerful, easy-to-use and highly productive software package for professional 3D graphics and animation design, for inclusion in any document or World Wide Web page.

Simply 3D 2 makes it easy to create vibrant 3D images and deliver rich color renderings of complex animations. With its ground-breaking innovations like selective ray tracing, VRML 2.0 and animated GIF support, *Simply 3D 2* places professional graphics users on the leading edge of 3D design for both Microsoft Office® and the Internet.

Picture Publisher [7]

MICROGRAFX

Micrografx Picture Publisher 7 offers an unparalleled combination of power and productivity in image editing, with many effects specially designed for the Web. From creation to completion, *Picture Publisher 7* addresses the complexities of preparing graphics and effects for the Web in an easy, yet powerful fashion - making the creation and applications of effects to images an easier, faster process. Users wanting improved control of color matching, transparency, file size management, or previewing their work before going to the Web or any other media will find that *Picture Publisher 7* is the perfect product for addressing those challenges.

KAI'S POWER T*ools* 3

Kai's Power Tools 3 is a unique and powerful collection of plug-ins that significantly expands the power of Adobe Photoshop, or any image-editing application that fully supports the Photoshop plug-in architecture, including Picture Publisher 7 from Micrografx, which you will also find on this CD. More than simply providing shortcuts to digital image enhancement, *Kai's Power Tools 3* allows the users to create digital special effects not possible through any other methods. It's serious graphics made fun.

Netscape Navigator 3.0 is a major new release of the world's most popular Internet client, bringing World Wide Web exploration, e-mail, newsgroups, chat, and FTP capabilities together in a seamlessly integrated package. It provides a superior platform for live online applications, supporting Live Objects and other interactive multimedia content such as Java applets, frames, and *Netscape* inline plug-ins.

Colorific gives computer users better on-screen color and "no-surprises" display-to-printer WYSIWYG color matching. Professionals and home users working with photos, charts, or presentations are able to reproduce these images accurately in print. *Colorific* for Windows 95 also lets the user adjust the color balance on-screen to optimize for multimedia, games, video, desktop publishing, and other computing tasks. *Colorific* supports Windows NT 4.0, Windows 95, Windows 3.1, and Macintosh applications with all color monitors.

CompCore SoftPEG™

This state-of-the-art *Compcore Softpeg Software MPEG Player* takes full advantage of Matrox Millennium II's digital video acceleration. You'll be able to play back full-screen MPEG clips under Windows at 30+ frames per second from either CD or hard drive. Full audio and video decoding are supported for playing back MPEG clips, RealMagic compatible Windows games, Video CD, CD-I and CD-Karaoke.

matrox

Vream Wirl is an exciting 3D web browser for exploration of VRML files on the World Wide Web. You can now experience a rich new world of 3D spaces and interact with text, images, animation, sound, music, and video!
